MATHEMATICS SPECIALIST

K-8 International Educators
Facilitated by **Erma Anderson**

Workshop Overview

The Math Specialist in International Schools (MSIS) is a two year program for K-8 teachers. The program is a coherent sequence of five institutes designed to expand teachers' understanding of the Common Core Standards, how students learn that content, evidence of student understanding and how to work with peers in a mentoring relationship.

The institutes are five, three day, face-to-face institutes with a follow-up online component. Upon completion of the five institutes, participants will be awarded a Math specialist certificate from the Office of Overseas Schools AERO Project.

Certificate Requirement

- Attend and participate in the five face-to-face institutes during the 2017-18 and 2018-19 school years.
- Participate in online discussions and complete coursework after face-to-face institutes.

Registration Requirements and Process

- Bachelor's Degree from an accredited institution.
- A valid Education Teaching License.
- Currently employed teaching in an international school with a minimum of three years of international school teaching experience.
- Application Form.
- A letter of interest expressing a two year commitment to the project. (This does not constitute a two year contractual commitment from the participant's school).
- A letter of recommendation from a current school administrator.
- Please email the application form, letter of interest and recommendation to Kathy Yong at kyong@scis-china.org.
- Registration is on a first come, first served basis.
- A minimum of fifteen participants is required, with a maximum of 25 participants.
